SEP 2023 - PRESENT

BACHELOR IN ICT
SOFTWARE ENGINEERING
Fontys University of Applied
Sciences

2023

HAVO DIPLOMA

PROFESSIONAL PROFILE

Passionate and driven Information and Communication Technology student specializing in Software Engineering. Deeply interested in technology, with a focus on cybersecurity, IT infrastructure, and software development. Skilled in various programming languages and frameworks, with a strong commitment to learning and applying new technologies. Eager to contribute to innovative IT environments and grow as a software engineer.

PROJECTS & VOLUNTEER WORK

OFFICE RESERVATION SYSTEM (JAVA SPRINGBOOT & REACT)

Group project to develop an intuitive, scalable office reservation system to streamline desk booking, schedule management, and team coordination, enhancing workplace collaboration and efficiency.

MODDING REPOSITORY (JAVA SPRINGBOOT & REACT)

Developed a platform for users to browse, upload, and manage modifications for various games, featuring mod categorization, version tracking, and user-driven content management. Focused on scalability and intuitive design.

HOSTING PROVIDER SIMULATION (C# .NET Razor Pages)

Built a platform simulating the purchase of VPS and dedicated servers, including a simulated & simplified cPanel for server management. Focused on creating an intuitive and realistic user experience for managing hosting services.

VOLUNTEER GAMING COMMUNITY WORK

Volunteered for gaming communities by setting up and managing game servers. Currently developing a web panel dashboard for players and administrators to view various statistics about the servers, look up and manage players.
